silent on this issue.

(Please keep this statement for comparison with the actual activity in your account at the end of the escrow accounting computation year.)

Your escrow balance contains a cushion of 171.17. A cushion is an additional amount of funds held in your escrow balance to prevent the balance from becoming overdrawn when an increase in the disbursement amount occurs. Under Federal law, your lowest monthly balance should not exceed 281.47 or 1/6 of the anticipated payment from the account, unless your mortgage contract or State law specifies a lower amount. Your mortgage contract and State law are silent on this issue.

Your ending balance from the last month of the account history (escrow balance anticipated) is (235.79). Your starting balance (escrow balance required) according to this analysis should be \$171.21. This means you have a shortage of 407.00. This shortage may be collected from you over a period of 12 months or more unless the shortage is less than 1 month's deposit, in which case we have the additional option of requesting payment within 30 days. We have decided to do nothing.

We anticipate the total of your coming year bills to be 1,688.80. We divide that amount by the number of payments expected during the coming year to obtain your escrow payment.

New Escrow Payment Calculation

Unadjusted Escrow Payment	140.73
Surplus Amount:	0.00
Shortage Amount:	0.00
